## PREFACE

---

In preparing the second part of the *IDIOMATA LINGUAE LATINAE* the author's aim has been to make the list as complete as possible; a number of expressions will therefore be found, that are not idioms proper, e.g. *res*, thing, object; *militaris*, military. But *res militaris*, art of warfare, is idiomatic.

Of Latin proverbs the literal translation and, if possible, the English equivalent are given, in order to show the different modes of thinking.

The "Orationes" and "Epistolae ad Familiares," which are read in our preparatory schools and colleges were carefully searched, and the phrases and idioms found were compared with similar lists in different editions of Cicero.

This book has been prepared for the purposes set forth in the Preface to Caesar's Idioms, to which I call the attention of the reader.

The author wishes to state that this series is not intended to be a "pons asinorum," but is published in order to give the willing and industrious student that amount and kind of assistance really necessary to render profitable his study of the Latin language; to enable him to get for the Latin phrase the proper English one, and *vice versa*; and to show him the best way "to put real Latin into real English and real English into real Latin."

The study of antiquity will always have a most salutary effect upon man by elevating him above the trivial wants of ordinary life, and by affording him the means of mental and intellectual culture. To all those who are desirous of penetrating more easily and more deeply into the spirit of the Roman classics, this book is offered.

J. C. MUELLER.
